

# Global High Voltage Switchgear Market Overview And 2023 Forecast

*TheBusinessResearchCompany.com offers High Voltage Switchgear Global Market Report 2020 from its research repository.*

The global high voltage switchgear market (above 36kv) market was worth \$ 13.37 billion in 2019. It is expected to grow at a rate of about 7% and reach \$16.88 billion by 2023."

*Abdul Wasay*

LONDON, GREATER LONDON, UK, January 29, 2020 /EINPresswire.com/ -- The global high voltage switchgear market (above 36kv) market is expected to grow at a rate of about 7% and reach \$16.88 billion by 2023. The demand for electricity generation is projected to drive the high voltage switchgear market. However, unstable prices of raw materials is restraining the high voltage switchgear market.

The high voltage switchgear market consists of sales of high voltage switchgear and related services. High voltage switchgear are electrical equipment used in an electrical

path to deal with voltage above 36kV and are designed to perform some operations such as control, regulate, and switch on/off as needed in electric circuit.

The global high voltage switchgear market is further segmented based on type and geography.

By Type - The high voltage switchgear market is segmented into gas insulated, oil insulated, and air insulated.

By Geography - The global high voltage switchgear is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.

Trends In The High Voltage Switchgear Market

Electronic and telecommunication companies are increasing the implementation of mobile substations. Installation of mobile substations enables restoration of electricity in outdoor conditions or in unforeseen circumstances, and are functionally designed to provide temporary power supplies as quickly as possible.

Potential Opportunities In The [Global High Voltage Switchgear Industry](#)

With increasing urban population and strong economic growth, the scope and potential for the global high voltage switchgear market is expected to significantly rise in the forecast period.

Major players in the market are ABB Ltd., General Electric, Company Crompton Greaves Limited, Fuji Electric, Hitachi, Hyosung Corporation, Mitsubishi Electric Corporation, Toshiba Electric Corporation, Siemens AG, and Eaton Corporation.

High Voltage Switchgear Global Market Report 2020 is one of a series of new reports from The Business Research Company that provides high voltage switchgear market overviews, analyzes

and forecasts high voltage switchgear market size and growth for the global high voltage switchgear market, high voltage switchgear market share, high voltage switchgear market players, high voltage switchgear market size, high voltage switchgear market segments and geographies, high voltage switchgear market trends, high voltage switchgear market drivers and high voltage switchgear market restraints, high voltage switchgear market's leading competitors' revenues, profiles and market shares. The high voltage switchgear market report identifies top countries and segments for opportunities and strategies based on market trends and leading competitors' approaches.

## Where To Learn More

Read High Voltage Switchgear Global Market Report 2020 from The Business Research Company for information on the following:

Markets Covered: global high voltage switchgear market

Data Segmentations: high voltage switchgear market size, global and by country; historic and forecast size, and growth rates for the world, 7 regions and 12 countries

High Voltage Switchgear Market Organizations Covered: ABB Ltd., General Electric, Company Crompton Greaves Limited, Fuji Electric, Hitachi, Hyosung Corporation, Mitsubishi Electric Corporation, Toshiba Electric Corporation, Siemens AG, and Eaton Corporation

Regions: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

Time Series: Five years historic (2015-19) and forecast (2019-23).

Other Information And Analyses: PESTEL analysis, high voltage switchgear market customer information, high voltage switchgear market product/service analysis – product examples, high voltage switchgear market trends and opportunities, drivers and restraints, key mergers and acquisitions, key metrics covered: number of enterprises, number of employees, global high voltage switchgear market in 2020 - countries offering most new opportunities

Sourcing and Referencing: Data and analysis throughout the report are sourced using end notes.

Strategies For Participants In The High Voltage Switchgear Industry: The report explains a number of strategies for companies in the high voltage switchgear market, based on industry trends and company analysis.

Opportunities For Companies In The High Voltage Switchgear Sector: The report reveals where the global high voltage switchgear industry will put on most \$ sales up to 2023.

Interested to know more about The Business Research Company?

The Business Research Company has published over 1000 industry reports, covering over 2500 market segments and 60 geographies. The reports draw on 150,000 datasets, extensive secondary research, and exclusive insights from interviews with industry leaders. Here is a list of reports from The Business Research Company similar to High Voltage Switchgear Global Market Report 2020:
