

Just over one week to go until Border Security 2020

SMI Reports: In just over a week's time, the Border Security conference will convene in Rome to explore the most pressing topics in border security.

ROME, ITALY, January 30, 2020 /EINPresswire.com/ -- [Border Security 2020](#) will convene in Rome on the 11th and 12th of February to discuss border security implementation, technological solutions, policing strategies and more. Returning for its 13th year, the conference has established itself as a market leader in this sector, covering the most pivotal topics in border security year on year.

2020 will be no different, providing an excellent opportunity to meet and network with key industry stakeholders, as well as discuss the latest developments in the field of cross border security and countering threats.

With just over one week to go, interested parties are urged to register as soon as possible as places are now limited: <http://www.bordersec-conference.com/einpr8>

Registration will include access to the following:

- Two days of in-depth conference sessions exploring the inside track on industry, technology and international programme developments.
- Entry to the exhibition space where 6 suppliers and integrators will showcase their cutting-edge security solutions, including: Innovative Travel Solutions (ITS) at Vancouver International Airport (YVR), Leonardo, Bartington Instruments, ReadID by Innovalor, Susteen and Vision-Box.
- The opportunity to hear from 21 high-level speakers from organisations including the: UK Home Office, Italian Navy, Portuguese Navy, Department of Homeland Security, USA, US Navy, Lufthansa, eu-LISA, Vancouver Airport Authority, Hermes Airports Ltd, Vision Box and many more.
- Over 5 hours of informal networking with a truly international audience of industry thought leaders and technical experts.

There will also be a half-day, [pre-conference workshop](#) on "Countering Emerging Threats in Document and Identity Verification in Border Security," led by Professor James Ferryman, Project Coordinator, D4FLY at The University of Reading, which delegates can also sign up to.
