

Future Soldier Technology 2020 To Host a Variety of Presentations from 11 European Nations

In addition to support from the UK MoD, The Future Soldier Technology Conference and Focus Day will feature insights on soldier programmes from across Europe.

LONDON, UNITED KINGDOM, January 30, 2020 /EINPresswire.com/ -- Future Soldier Technology, the world's leading event on soldier and marine equipment modernisation and capability development, will commence in London on the 9th – 11th of March 2020. The three-day show will be made up of a [Dismounted Soldier Situational Awareness Focus Day](#) on the 9th March and a [Future Soldier Technology Conference](#) on the 10th and 11th of March.

Interested parties can register for the event at <http://www.futuresoldiertechnology.com/einpr7>

The event is supported by the UK MoD and will also play host to a range of nations who will provide detailed and technical insight on soldier programmes from around the world, including these European countries:

- AUSTRIA - Colonel Johanes Bogner, Head of Project Team, Soldat der Zukunft, Austrian Army, presenting: Optimizing Austrian Dismounted Soldier System – Soldier 2022 And Future Soldier
- BELGIUM - Lieutenant Colonel Jan Vandamme, Head of the Implementation Team Land Simulations, Land Component, Operational Command, Ministry of Defence, Belgium, presenting: Maximising Soldier Capabilities Within Short Timeframes by Leveraging Cots Solutions
- FRANCE - Colonel Francois-Regis Dabas, Director Capability Development, French Army, presenting: The French Army's Approach to Driving Soldier Lethality and C4i For Superior Target Acquisition and Situational Awareness
- FINLAND – Major Jari Tiilikka, Program Manager Dismounted Soldier System, Finnish Defence Forces, presenting: Dismounted Soldier System Finland - Building Night Combat Capability

Future Soldier Technology 2020 Conference and Focus Day

- GERMANY - Dr Max Winkelmann, Scientist Signatronics, Fraunhofer IOSB, presenting: Considerations for Soldier Concealment with Enhanced C2 Equipment
- NETHERLANDS - Dr Milene Catoire, Exercise physiologist, TNO, presenting: The Effects of Equipment Mass, Bulk and Stiffness on Leap Operational Performance
- NORWAY - Mr Lars Erik Olsen, Principal Scientist Norwegian Defence Research Establishment, Norwegian MoD, presenting: Research and Development of Networked, Mobile Dismounted Soldier Systems for The Norwegian Armed Forces
- PORTUGAL - Major Ricardo Jorge Parcelas Araujo e Silva, Capabilities Department, Portuguese Army, presenting: Working with Industry to Deliver Enhanced Soldier Sensors and Future Battlespace Management Systems
