

Manufacturer Super Brush LLC Will Exhibit Their Technologically Advanced Foam Swabs at SPIE Photonics West 2020

Super Brush LLC will be at booth #4085 in the Moscone Convention Center in San Francisco, exhibiting their lint-free, durable foam swabs at SPIE Photonics West

SPRINGFIELD, MASSACHUSETTS, US, January 30, 2020 /EINPresswire.com/ -- Super Brush LLC will be at booth #4085 in the Moscone Convention Center in San Francisco, exhibiting their lint-free, durable foam swabs at SPIE Photonics West - the leading event for the photonics and laser communities. 22,000 advanced manufacturing professionals are expected to attend to familiarize themselves with the latest technologies in photonics and lasers – fields in which Super Brush LLC lint-free swabs have provided critical solutions.

“Super Brush designs and manufactures applicators and swabs for optics, critical surface applications, delicate instruments and display screens,” says Diane Henry, Director of Sales.

“These applicators and swabs provide solutions to meet the needs of clean room, medical, technical, electronic, firearm & general industrial fields.”

Super Brush disposable and multipurpose applicators featuring polyurethane foam, provide even distribution or cleanup of coatings, solvents, chemicals and lubricants.

Super Brush foam swabs are lint-free, unlike traditional cotton swabs, and can be customized with:

- Foam mitts that are hydrophobic, hydrophilic, soft or coarse
- Overall-lengths ranging from 2-inches to over 100-inches
