American Premium Water Corporation CEO Ryan Fishoff commented, “This is an exciting day for Vanexxe! Not only is this ground breaking product expanding to Australia, its also being evaluated by the TGA to be classified for therapeutic use. If approval is given, it will greatly expand the number of channels that can sell the product. It will also offer further validation of the product and its efficacy. The LOI with Nutra Pty falls in line with our focus on international expansion, and has been in the works for some time, as the Company stated back in July that it was in discussions with distributors across the Pacific Rim. Establishing a foothold in the Pacific has been a stated goal of the Company’s. As we move into 2020, we will continue to focus on expanding into this region. I look forward to updating shareholders when the Nutra Pty LOI is completed and the Company’s other activities in the area.”

About Canyon Create Corp.
Canyon Create Corp., a Nevada Corporation, is the developer of Vanexxe (www.vanexxe.com), a patented cosmetic cream that uses a proprietary formulation to eliminate the appearance of varicose veins. The product works by simultaneously bringing heightened blood flow to the bulged vein valve, allowing it to pull away from the dermis and return to a more normal condition, and increases the elasticity in the upper skin layers to provide healthier skin, assisting in moving the vein back to a non-visible location.
