RESERVOIR COLLECTIONS ARE INSPIRED BY [CAR RACING](#)

Collections such as the GT TOUR collection highlight the symbols of endurance and performance of its vintage cars. RESERVOIR timepieces innovate by offering a radical reading of the time

based on three watch complications: a retrograde minute at 240° recalls the RPM counters, the jumping hour in the window which reminds us of the mileage counters of cars and a power reserve which reproduces the fuel gauges.

Immerse in this universe of collectors of historic automobiles! The immersion will be total to fully appreciate our collections.

Both the Concours in the Hills and Bezelfest are open to the public – and well worth your time. Stop by during your day in the Sonoran Desert at Fountain Park, in Fountain Hills, starting at 9 a.m. Exhibitors will be showing their watches until 6 p.m.
