

Tazscapes Rated Best Calgary Landscaping Company for 3 Years in a Row by ThreeBestRated.ca

Fantastic Calgary Landscaping work on a Springbank Estate won Tazscapes, a contemporary landscaping company, the tag of the best landscaping company in Alberta.

CALGARY, ALBERTA, CANADA, February 12, 2020 /EINPresswire.com/ -- We, Tazscapes Inc., the leading landscaping company in Calgary, are thrilled to announce that we're rated as the best landscaping company for 3 years in a row by ThreeBestRated.ca. There's a Swedish proverb: "Shared joy is a double joy..." So, we wish to share our success story with you all that we've completed our most significant project '[Springbank Landscaping](#)' up to date.

It's not a child's play for any of the landscaping companies to complete such a challenging project since our clients yearned to bring the alpine hills to their backyards. However, we could transform it since we believe that without challenge, there's no advancement. We accepted the challenge and started working with passion and purpose, which led to the golden success. Since we're very well-known for Calgary Trees, Shrubs, and Perennial [tree planting services](#) and our promise with the Calgarians to offer them the best landscaping services, our efforts were recognized.

“

In our Springbank Landscaping Project, we've tried our level best to enrich the experience of outdoor living for the residents in an emotional way.”

themselves." So, now coming to the Estate home Springbank Landscaping Project, our clients wanted us to create the space with the feel for natural tress as this estate has vast natural surroundings. Tazscapes Inc. has been [landscaping Calgary](#) for many years, and we're familiar with the comprehensive study for all your planting needs; therefore, we analyzed the site from wind testing to sun path diagrams to figure out the type of trees to be planted and planning and when to plant trees.

In Calgary, deciduous trees are installed in either potted or clipper sizes. Moreover, they're affordable. So, after a thorough study, we, with the help of our landscape design experts, could tier trees to tie into the existing vegetation. After this entire process, the trees were ready to flourish with a variety of fall colors. Also, Coniferous trees, especially Colorado Spruce trees in Calgary, are installed in meter sizes. These trees need lots of maintenance because of their

massive structure. Subsequently, our intense study and foolproof strategies made the Springbank Estate, a beautiful place enclosed by natural trees and vegetation.

After vegetation, we had one more important task in Springbank Project, and that was to block the noise coming from the road behind. We decided to design a unique central water feature. To your surprise, at Tazscapes, this is customary to provide our clients with outdoor water features and fountains. In Calgary, water features have a wide variety, which can include a large waterfall and stream into a built-in natural pond or outdoor water bubbling feature. Not only this, we can design the water in a subtle way that will introduce you to a quiet and serene place.

In the words of Brook Atkinson, "Real art is illumination, it adds stature to life." At Tazscapes, we discern very well how landscape lighting sets the mood in your yard. Hence, we love to illuminate your dark and gloomy backyards. Apart from that, we offer low voltage L.E.D. outdoor landscape lighting, which not only beautifies your yards but also are best for safety point of view. "In our Springbank Landscaping Project, we've tried our level best to enrich the experience of outdoor living for the residents in an emotional way." Mumtaz Mirza, Owner - <https://tazscapes.ca/about-tazscapes/>.
