"It was illegal to grow hemp in the United States for over 80 years (since 1937). The 2018 Farm Bill changed all that, and now would-be hemp leaders have an amazing opportunity to master the business and financial aspects of the market and learn the regulatory ins and outs of the industry," said Jeffrey Friedland, CEO of FC Global Events and leader of Hemp Boot Camps. "Our Hemp Boot Camps will enable early-to-market participants to obtain the tools and knowledge to succeed in what is becoming a major American agricultural crop."
