

Xpect Solutions Provides General & Robotic Automation for Manufacturing

Xpect Solutions, a U.S. automation company based in Longmont, Colorado.

LONGMONT, CO, USA, February 4, 2020 /EINPresswire.com/ -- [Xpect Solutions](#) Provides General & Robotic Automation for Manufacturing

Xpect Solutions, a U.S. automation company based in Longmont, Colorado, offers both general and robotic automation services for the manufacturing industry.

The factory industrial automation industry depends on efficient engineering and cutting-edge solutions for every manufacturing need. Xpect Solutions provides engineering design services that range from full project integration to engineering design with the creativity, precision, dedication, and individual attention needed for every project. The Longmont-based company also offers both general and robotic automation services depending on an industry's needs.

General Automation Services

Xpect Solutions provides general automation services and is sometimes referred to as a General Automation Integrator, meaning they specialize in the following:

- Automated assembly, automated testing, and automated inspection
- Material handling, material transfers, and material packaging
- Robotic assembly cells, robotic palletizers, and robotic packaging

The company offers years of experience providing the industry with the turnkey development of factory automation systems.

Robotic Automation Services

Xpect Solutions also provides robotic automation services. Many companies throughout the United States are reevaluating their manufacturing processes due to the boom of the robotic industry and affordable robot prices. Xpect Solutions offers robotic automation that can help lower cycle times and reduce labor content. Their turnkey integrated solutions are based on different types of robotic arms from manufacturers including FANUC, RETHINK ROBOTICS, UNIVERSAL ROBOTS, and EPSON.

Robotic arms could be suitable for specific applications as they can cover various ranges of capacities. The industrial automation company will work with customers to ensure that the robotic solution is implemented successfully, on time, and within a set budget. The robotic systems are marketed as incredibly user-friendly to allow workers to easily operate the system without extensive training or programming knowledge.

Why Companies Might Choose to Automate with Robotics from Xpect Solutions

Some of the biggest reasons manufacturing industries are beginning to automate with robotic solutions are that they reduce production and labor costs while saving time.

Companies across the country are choosing Xpect Solutions because they do the following:

- Assist in choosing the right robot
- Answer questions about the right end of arm tooling
- Assist in selecting the right safety guarding
- Help obtain the right software and design to achieve promised efficiency and ROI
- Help find the right systems integration

Xpect Solutions is a popular source for general automation and complete robotic solutions across the manufacturing industry in the United States. Interested customers can contact them for a free quote.
