Competitive Analysis
The Global Real Time Location System (RTLS) Market is an extremely fragmented market with high degree of competition existing among market players. This market is primarily technology driven and any prospective market player would do well if investments in R&D are prioritised. Some major players in the market are Impinj, Teletracking Technologies, Ubisense Group, Zebra Technologies, Airista, Aruba Networks (Hp Enterprise), Awarepoint, Identec Group, and among others.
Impinj Inc, a major market player has started following the trend of connecting products to the web, and has started incorporating the Internet of Things into their RFID tags. Making an exclusive Impinj Platform so that consumers can view the state, location and authenticity of a product in real time was their way of establishing market presence.
Ubisense Group has chosen to focus on improving the efficiency of the supply chain process in factories by emphasising the importance of a digitally connected factory and its benefits. Keeping an eye on the future, the firm has started delivering customised solutions to make smart factories for the automotive industry. They are aimed at allowing the manufacturers to achieve efficient inventory control by making products, parts and components visible and identifiable anytime and everywhere.
