

# The Best Hair Dryers for 2020 | Everything You Ever Wanted To Know About Hair Dryers

*In the market for a new blow dryer? Check out this list of the best hair dryers for 2020!*

NEW DELHI, NEW DELHI, INDIA, February 6, 2020 /EINPresswire.com/ -- It's no secret that we all think about the shiny salon styled hair. The most interesting thing about easy to manage salon styled hair is that they look attractive. A lot of people say that they can not go to a salon every time they go out in their fast-paced life. But, you are in for a surprise. You can pick some of the best grooming tools and get a salon-worthy blowout at home. In this day and age, we want everything quick and easy; instant gratification has become the need of this century. Just so you know, the problem can be solved with some of the best hair dryers, make your tresses easy to manage and style while solving the problem of bedhead, frizzy hair. Isn't it great?

Know how Hair Dryers help in getting Gorgeous Hair at Home

Besides, some people feel completely overwhelmed when it comes to picking out a new blow dryer? Surely, you already know that not all hair dryers are created equally. Here are some factors that should be taken into consideration while shopping for the best hair dryers. The relevant features considered before shopping the best hair dryer are figuring out your hair's texture, considering its length, the porosity of your hair strands, and curl pattern.

A lot of people make the common mistake of purchasing a generic hair dryer, only to realize that the tool isn't working as expected and making the hair styling process more difficult than it has to be. Having the right hair dryer for your hair type can make a world of

a difference. Not only during the hairstyling process but afterward as well. Ensuring that your style is locked in, your curl pattern is smooth and uniform, and your hair looks healthy and shiny is one of the best feelings before you leave your home.

How do you select the best hair dryer for you?

When thinking about the perfect hairstyle, it takes more than a hair straightener or curling wand to create the final look. Finding the best hair dryer is essential as it's the first step in your hairstyling routine and helps prevent frizz, flyaways and static, as well as priming your hair for the other steps.

Discover this edit of the best hair dryers for 2020 below.

[1. CARRERA 531 Professional Hair Dryers for Men & Women](#) | Hairdryers - Styling Nozzle-Diffuser, Blow Dry, Hot-Cold Air, DC 2400W

Can we just talk about power? No? Ok, let's start with permanent ionization instead. This hair dryer dries hair without charging it with static electricity. Ions also care for your hair by smoothing the outermost cuticles. This hair dryer comes with a turbine that has shovels, not blades, so it can move air through your dryer much better than a propeller. This is one of the reasons it is called one of the best hair dryers for every type of hair.

The main product highlights are 2400 W power, durable DC motor with titanium and ceramic coating and AC turbine, ceramic coated air outlet grille ensures an even heat distribution and eliminates heat spots on the hair, permanently ionized, airflow infused with argan oil & keratin for perfectly shiny hair, 3 heating levels / 2-speed levels, cool shot, protection against overheating, lightweight construction with only 576 gram (with styling nozzle) and removable air inlet filter.

If you want professional drying and styling results at home, you need the right dryer. CARRERA 631 - a hair dryer with an AC motor. That's what's at the heart of every professional tool. AC motors are much more robust and are designed for longer drying sessions. Hairdryers with an AC motor last 4 times longer than conventional DC motors due to their functionality and construction. With 2,400 watts, this AC Hairdryer accelerates the airstream to speeds higher than a hurricane. It also has salon-standard features to care for your hair as you dry or style. The main product highlights are 2400 W for airstream speeds up to 190 km/h, ultra-slim styling nozzle for precision results, ceramic coated air outlet grille ensures an even heat distribution and prevents heat spots on hair, separate on/off switch for ionizer, airstream enhanced with argan oil and keratin for perfectly shiny hair, 3 heat / 2-speed settings, cool shot, protection against overheating, detachable air inlet grille for easy cleaning and it runs on 220 to 240 V mains

power.

Hair Dryers are surely our knight in shining armor. They help us get our desired hair style within few minutes. But whenever you use a hair dryer make sure to keep at certain distance from your hair. Because the direct heat at too close proximity can damage the hair texture and lead to breakage. You can choose any hair dryer from the above mentioned options to get the stylish look daily.
