*MaiaLearning partners with Winward Academy to boost college admissions chances and level the playing field for students worldwide*

CUPERTINO, CA, UNITED STATES, February 10, 2020 /EINPresswire.com/ -- Test scores can make or break college acceptances for students with modest academic records. About 83% of U.S. colleges rate SAT/ACT scores as considerably or moderately important to admissions, says the National Association of College Admissions Counselors. This has given students who could afford test coaching a distinct advantage in college applications.
