

HelpSystems Partners with SystemDomain to Deliver Secure, Automated File Transfers

SystemDomain and HelpSystems partnership will play a critical role in market strategy and delivery of its software solutions and services.

CHICAGO, IL, USA, March 9, 2020 /EINPresswire.com/ -- [SystemDomain](#), Inc, a Chicago-based leading global information technology and consulting services company, and [HelpSystems](#), a global provider of innovative IT, cybersecurity, and automation solutions, today announced a reseller partnership agreement in North America.

The partnership augments SystemDomain's product line and technology expertise HelpSystems has in secure file transfer to bring a complete managed service offering.

"This collaboration highlights our strong and growing relationship with HelpSystems," said Shubhi Garg, CEO, SystemDomain, Inc. "The partnership creates a center of excellence with a dedicated focus on HelpSystems products that provide broad capabilities and solutions for a superior customer experience in secure file transfer, cloud, and cybersecurity solutions." Garg continued, "This alliance also creates a strong differentiating edge to our existing IT professional services portfolio in project management and advisory services for cybersecurity solutions."

[GoAnywhere](#), a HelpSystems solution, is a robust and complete managed file transfer platform that satisfies a wide array of file transfer requirements. As a single centralized, secure solution, GoAnywhere provides automated workflows, cloud integration, load balancing and clustering, and more to simplify file transfer activity.

"The HelpSystems partnership with SystemDomain is another step we've taken to help build a better IT experience for customers. Together, with the innovative consulting services of SystemDomain, security-forward customers can enjoy more security and automation around their file transfers," said Brian Pick, Managing Director, HelpSystems. "Whether on-premises, in the cloud, or in a hybrid environment, our user-friendly managed file transfer solution – GoAnywhere – adds to the cybersecurity offerings of our partner as we both work to enhance business-critical processes for customers."

SystemDomain provides consulting to implement and integrate end-to-end cybersecurity solutions to address the cyber vulnerabilities and threats across the enterprises, i.e. information systems, network, database, physical access, access control and management, cloud, and mobile.

SystemDomain's solutions and professional services help protect the customers, shareholders, and employees of corporations in a cost-effective and efficient manner. SystemDomain also

provides business intelligence for proactive monitoring of critical cyber assets.

Key award wins and industry accolades for SystemDomain:

- Ranked as 'Top 20 Most promising Cyber Security Solution Provider 2017' by "Silicon India."

- Selected as one of Diversity Business.com's (now OMNIKAL) OMNI500 Top Businesses for 2017.
