

Ryan Transportation Launches New Shipper Portal

Ryan Transportation Customers Can Now Get Real-Time Shipment Tracking Through the RTS Pro Shipper Portal

OVERLAND PARK, KS, UNITED STATES, February 11, 2020 /EINPresswire.com/ -- Ryan

The Shipper Portal is a technology solution that was developed based on feedback from our customers. It allows us to provide easily accessible, real-time information, allowing better visibility."

Matt Emison

Transportation customers now have access to the RTS Pro Shipper Portal to see real-time tracking for their loads. With highly visible, color-coded icons on the dashboard, you can immediately see which loads are on time or delayed. Users can find the details on specific loads by searching the order number, reference number or pickup/delivery location. They can also view uploaded shipping documents, including bills of lading, invoices, permits, etc. and see a 90-day history of all loads booked with Ryan Transportation.

Ryan Transportation SVP Matt Emison is excited to introduce the new portal to customers:

"The Shipper Portal is a technology solution that was developed based on feedback from our customers. It allows us to provide easily accessible, real-time information, allowing better visibility for our customers' supply chains and complements our other transportation management tools. Ryan Transportation will continue to invest in technology that provides value to our customers and carrier partners."

The RTS Pro Shipper Portal can be conveniently accessed through a web-based portal. To register, customers can visit www.RTSPro.com.
