VANCOUVER, BRITISH COLUMBIA, CANADA, February 11, 2020 /EINPresswire.com/ -- #Defense #Stock News- A2Z Technologies Canada Corp. (TSXV: \$AZ.V) Awarded \$1.5M, Three-Year Contract with Israel's Ministry of Defense; @A2Z\_Advanced

(Investorideas.com Newswire, Homelanddefensestocks.com) A2Z Technologies Canada Corp. ("A2Z" or the "Company") (TSXV: AZ) announced today that the Israeli Ministry of Defense ("MOD") has awarded the Company a three-year contract for CAN \$1.5 million that will be paid over the life of the contract.

Under the terms of the contract the Israeli MOD will be leasing A2Z's products and equipment for which A2Z will be responsible for maintenance for the duration of the contract. The equipment will remain the property of A2Z throughout. At the end of the contract the company will be able to determine how to best position the assets going-forward. There is also significant potential for a new contract for the same services #following the end of the three-year contract period.

"We are extremely pleased to have been awarded this contract and the continued strength we are seeing in our technologies and service businesses. This contract is not only a significant source of recurring revenues for the next three years but also deepens our relationship with one of our most long-standing government partners. A2Z and the Israeli MOD have been working together for decades now, and with our new innovative FTICS technology, which we believe is "the next seatbelt" to make automobiles safer than ever, we look forward to continue protecting the lives of both military and civilian populations in future decades as well." said Bentsur Joseph, CEO of A2Z.

Israel's Ministry of Defense is the governmental department responsible for Israel's security at the political, military, and civilian levels with their primary objective being to ensure the safety of Israel. The MOD also promotes research and development in security technologies and supports veterans and their families.

## About A2Z

A2Z Technologies Canada Corp. is an innovative technology company based out of Israel, specializing in military technology and expanding into the civilian markets. A2Z has been operating for over 30 years and has a client base with 75 recurring clients, including the Israel Defense Forces, Security Forces, and Ministry of Defence among others. A2Z plans to leverage their cash flow-generating core-business to expand into the civilian robotics and automobile markets.

According to Zion Market Research, the Military Robotics space is expected to reach \$53.93B by 2027 for a projected CAGR of 13.5%.(Summary of Report)

### Highlights:

**Core Business:** A2Z's line of products include unmanned remote-controlled vehicles of various sizes designed for intricate bomb disposal, counter terrorism, and fire fighting, as well as energy storage power packs/generators. A2Z also provides maintenance services to both external and in-house complex electronic systems and products to over 75 clients.

A2Z has been an Israel Ministry of Defense contractor for over 30 years and a significant portion of its business is long-term service contracts.

**Expansion into Civilian Markets:** To drive growth, A2Z plans to adapt its military technologies for the much larger civilian markets. One patent-pending product is a capsule (FTICS) that prevents vehicle fires resulting from collisions. A2Z has also been granted a patent for a smart vehicle cover device that protects automobiles from natural elements while the vehicle is parked and is stowed away safely in the vehicle's bumper when not in use.

**Fuel Tank Inertia Containment System (FTICS):** In the event of a collision, the FTICS installed into the fuel tank prevents the ignition of fuel, thereby mitigating the spread of fire and explosion, minimizing risk to human life and property damage. According to the NFPA, from 2014 to 2016, an estimated 171,500 highway vehicle fires occurred in the United States, resulting in an annual average of 345 deaths, 1,300 injuries, and \$1.1 billion in property loss annually.

**Management:** CEO Bentsur Joseph's previous venture, Comfy Interactive, was acquired by Shamrock Holdings, the family investment firm founded by Roy Disney. Previously, Bentsur Joseph was the chairman of Elad Hotels whose holdings include the Plaza Hotel in New York City. Bentsur Joseph has a ~64% ownership stake in the business with 30,000,000 shares subject to an escrow agreement.
