

# Conference Chair from AstraZeneca invites you to attend Pre-filled Syringes East Coast 2020

*The 7th annual Pre-filled Syringes East Coast conference and exhibition is returning to Boston USA, in April.*

BOSTON, USA, February 12, 2020 /EINPresswire.com/ -- SMi Group are delighted to have Michael Song, Senior Manager, Dosage Form Design and Development, AstraZeneca chairing the two-day conference.

Read the letter from the chair:

Dear Colleagues,

It is with great pleasure and delight that we welcome each of you to SMi's 7th annual [Pre-Filled Syringes East](#) conference in Boston, USA.

Over the past decade, the pre-filled syringes industry has grown significantly with growing pharmaceutical interest the market is to grow to \$9.7bn by 2025 with continually increasing number of drug products and design innovations being developed via prefilled syringe.

This year's meeting will endeavor to address the key elements at the forefront of the pre-filled syringes industry, addressing: how digital connectivity is being used in conjunction with devices to aid user experience, advances in drug product formulation and control strategies, regulatory insights from industry experts and FDA representation, lifecycle management case studies for combination products and insights into device development in industry.

The 7th annual conference will allow for the face-to-face convergence of subject matter experts, thought leaders, researchers, and manufacturers in disciplines related to the development of prefilled syringes and other therapeutic delivery products, and thereby provide a tremendous opportunity for meaningful discourse.

As chair of this event, I look forward to personally welcoming you to this must-attend conference in Boston this April.

Your Sincerely,  
Michael Song  
Senior Manager, Dosage Form Design and Development  
AstraZeneca
