

Koi Computers Showcases Government Contracts, Intel HPC Data Center Specialist Status at SC19

Koi Computers showcased its elite U.S. government contracts: GSA IT Schedule 70, NASA SEWP V and NITAAC CIO-CS at SC19.

CHICAGO, ILL., U.S., February 12, 2020 /EINPresswire.com/ -- [Koi Computers](#), one of the leading complete HPC solution providers, showcased its elite U.S. government contracts: GSA IT Schedule 70, NASA SEWP V and NITAAC CIO-CS at SC19. The company is also an Intel HPC Data Center Specialist. Koi Computers Federal Business Development Manager Ms. Catherine Ho said, "The continued success of these contracts and SC19 capped off another incredible year for Koi Computers." Koi Computers, through its own contracts and contractor teaming arrangements, provides federal, state and local government with access to thousands of IT products and solutions through the following contracts:

- GSA IT Schedule 70: Contract No. GS-35F-0488U
- NASA SEWP V Group A: Contract No. NNG15SD50B

- NITAAC CIO-CS: Contract No. HHSN316201500039W

"We have been developing and building HPC technology with Intel processors for top government agencies for more than two decades," Ms. Ho said. "During that time we have cultivated a strong reputation for reliable quality, on-time delivery and outstanding support. Winning these contract awards involved a rigorous vetting process that lets all prospective clients know they can put their trust in us."

As an Intel Data Center Specialist, Koi Computers is a proven Intel partner that has demonstrated deep experience in implementing and delivering higher-level data center solutions. Intel Data Center Specialists have access to client-facing benefits from Intel that differentiate them from competitors and allow them to deliver better performing solutions. Headquartered in Greater Chicago since 1995, Koi Computers has been working with top technology manufacturers to deliver scalable high performance computing and technology solutions that improve efficiency, reliability and speed. The company's world-class engineering team specializes in building custom IT solutions that accommodate today's needs and tomorrow's vision with services that include performance benchmarking and outstanding support. Koi Computers has a strong track record of developing, building and deploying HPC technology for the U.S. Federal Government with satisfactory ratings in CPARS and Past Performance. The company is a Prime Contract Holder of the GSA IT Schedule 70, NASA SEWP V and NITAAC CIO-CS contracts.
