

Huntington Hills Calgary NE & NW Backyard Landscaping By Tazscapes Inc.

A natural water feature encompassing natural rustic patio to enjoy their evening wine and by adding landscape lighting was the key to this backyard oasis.

CALGARY, ALBERTA, CANADA, October 22, 2020 /EINPresswire.com/ -- Tazscapes Inc. feels enormous pleasure announcing the completion of the [Huntington Hills Landscaping Project](#) in this northwest and northeast quadrant of Calgary, Alberta. Interestingly, Huntington Hills clients already owned a house in Canmore and longed to experience the same feel to their Calgary landscape. To bring that feel in their new home, Tazscapes Inc., as their chosen [Calgary landscaping contractor](#), proposed doing an outdoor water feature that would include the natural pastoral courtyard for them to enjoy their time with family.

“

We can design the water not only to make a statement in your yard but also present it in such a subtle way so we can take you to a place of tranquillity in your very backyard”

Mr. Mumtaz Mirza, Owner

“We can design the water not only to make a statement in your yard but also present it in such a subtle way so we can take you to a place of tranquillity in your very backyard.”[Mr. Mumtaz Mirza] [Owner]. Adding water is one of the brilliant components of a landscaping project. There’s a wide range of options when it comes to adding water features in your backyards. Tazscapes Inc. can create natural water features like huge natural ponds or a rippling water stream, or a tiny water fountain bubbler, which produces a pleasing impact on your physical and mental

well-being, soothing away your stress and worries.

This may sound unbelievable to you, but this is true that the element of water helps you embark on a journey into your dream oasis.

Few of the features of Project Huntington Hills are as follows:

- Natural boulders
- Aluminum Edging
- Slate stepping stone
- 20 mm Rundle Rock
- Cedar Deck
- Black Picket Railing
- Pre Cast steps
- Natural Water Fall Pond
- Cedar Foot Bridge
- Cedar Fence
- Natural Flagstone Patio
- Cedar Pergola

Also, the use of outdoor landscape lighting provides your yard with an entirely different look. The [natural water feature](#) is one of the important keys to our landscape project. This illuminates your spirit. So, if you throw a late-night party in your yard, your guests would be spellbound to see this decorated space. Tazscapes Inc. uses path lights and spotlights through the yard.

At Tazscapes Inc., they are familiar with the fact that a positive life is possible if there's a sense of tranquillity all around. To turn that thought into a reality, the professionals at Tazscapes Inc. divided the backyard levels with rustic boulders and added several trees and shrubs. This worked in two ways: first, the backyard had privacy for the residents and secondly; it became a place where all the family members could spend time together and have fun. John Ruskin says, "Quality is never an accident. It is always the result of intelligent efforts." Since 2015, they have been ensuring quality work and excellent landscape artistry.
