The general lighting market consists of sales of ambient lighting and related services used for lighting the indoors of household, commercial, and institutional sites. General lighting includes chandeliers, ceiling or wall-mounted fixtures, recessed or track lights and lanterns mounted on the outside of homes. It also includes wall lighting, spotlights, post lanterns, recessed fixtures, and hanging fixtures used in hanging structures.

The global general lighting market is further segmented based on type and geography.

By Type - The general lighting market is segmented into LED, CFL, LFL, HID, halogens, incandescent, and others.
By Geography - The global general lighting is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, the Asia-Pacific general lighting market accounts for the largest share in the global general lighting market.

Trends In The General Lighting Market
Companies are increasingly using Li-fi (Light Fidelity) network to manufacture general lighting equipment. Li-Fi is a wireless optical networking technology that uses light-emitting diodes (LEDs) for data transmission. The Li-fi bulbs are equipped with a small chip that modulates the light used for data transmission with speeds up to 224 gigabits per second.

Potential Opportunities In The Global General Lighting Industry

With an increase in economy and growing demand due to growing population, the scope and potential for the global general lighting market is expected to significantly rise in the forecast period.

Major players in the market are Schneider Electric, Panasonic, Koninklijke Philips N.V., GENERAL ELECTRIC, Acuity Brands, Cree, Inc., Eaton, Bridgelux, Citizens Electronics, and OSRAM.

General Lighting Global Market Report 2020 is one of a series of new reports from The Business Research Company that provides general lighting market overviews, analyzes and forecasts general lighting market size and growth for the global general lighting market, general lighting market share, general lighting market players, general lighting market size, general lighting market segments and geographies, general lighting market trends, general lighting market drivers and general lighting market restraints, general lighting market's leading competitors' revenues, profiles and market shares. The general lighting market report identifies top countries and segments for opportunities and strategies based on market trends and leading competitors' approaches.
