[Credit Counsel, Inc.](#)'s Medical Collections Services team delivers customized accounts receivable management solutions, enabling providers to improve financial results without sacrificing relationships and top-notch patient care.

## Self-Pay

If you find yourself sending out patient invoices repeatedly, it might be time to consider our medical collections. Credit Counsel, Inc. Medical Collections Services help you reduce write-offs and keep patients coming back to your medical office. We can motivate your patients to pay for the medical services you have provided, without damaging your reputation or destroying your profit margin. Medical collections let your patient know you are serious about being paid and allow you to retain your earnings.

Good medical collections can also help fund the skyrocketing costs of medical malpractice insurance. Reducing your accounts receivable frees up cash to fund premiums and other costs. Our medical collections will help you focus on what you do best - providing excellent patient care.

## Insurance Resolution

Insurance companies love to play games with your money. Delayed payment on claims is likely something you experience regularly. Waiting endless minutes on hold or being told they have no record of your claim - sound familiar? Insurance companies want to keep your money in their bank account if they can help it. Credit Counsel, Inc.'s Medical Collections Services can help you level the playing field.

Insurers reject claims on technicalities or inaccurate assumptions and Credit Counsel, Inc. has the experience to detect and cut through their stall tactics. We can help you stop the insurance companies' stall tactics, get paid for the services you provided and free up your staff to focus on current claims and other more productive activities. Proper medical collections can save you hours of frustration and claims re-filing.
