

BAE Systems Signs up as the Lead Sponsor for Air Mission Planning and Support 2020

Smi Reports: BAE Systems returns as a Lead Sponsor for the Air Mission Planning and Support conference, in London

LONDON, UNITED KINGDOM, February 20, 2020 /EINPresswire.com/ -- In recent news, 'BAE Systems will develop software for semi-autonomous multi-domain mission planning under a new contract received from the US Defense Advanced Research Projects Agency (DARPA)*. This innovative development will provide military operators the advantage of using battlespace resources across space, land, air and sea domains. (Source: Airforce Technology)

With that in mind, SMi Group are pleased to announce [BAE Systems as a Lead Sponsor](#) for the highly anticipated Air Mission Planning and Support conference, taking place on [21st - 22nd April, in London](#). The conference will explore the latest advancements in air mission planning, specifically focusing on maximising air power, data management, multi-domain command and control, fifth generation integration and more.

The poster features a dark background with a sunset sky. Two fighter jets are shown in flight, one in the foreground and one in the background. The text is white and bold.

In keeping with the multi-domain software development from BAE Systems, Air Mission Planning and Support 2020 draws on an impressive speaker line-up who will be providing key briefings on the subject.

Delegates can expect to hear top presentations about [multi-domain command and control \(MDC2\) capabilities from:](#)

Wing Commander Jason Wells, SO1 Equipment Capability, JALO presenting on 'Mission Planning from the Ground — The JALO Perspective and the Requirements for Directing Combat Aircraft from a Forward Position' covering:

- Multi-Domain operations and planning across services – assessing JALO capabilities in effectively planning and directing air missions from the ground
- The technological and equipment demands to effectively communicate and guarantee real-

time information flow

-Assessing the need for bespoke, JTAC, mission focused training: understanding and developing training to meet modern threats and ensure effective air power

Flight Lieutenant Peter Smiley, Puma Evaluator Pilot, JHC RWOETU briefing on 'Assessing the Rotary Specific Procedures and Systems Required for Effective Mission Planning Operations and the Requirements for Effective Coordination Across Domains' covering:

-Multi-domain mission planning and the requirements on the operator

-Land or air? The impact on mission planning procedures and processes

-Improving army and air force interoperability through standardised approaches to mission planning

Mr Kenneth L Kash, Chief, Combat Air Forces Mission Planning, CAF, US Air Force presenting on 'Looking to the Future — Effective Strategies for Ensuring New Developments are Readily Available to the Warfighter' covering:

-The challenges of managing and coordinating data flow across domains

-The ever-growing importance of cyber security in streamlining and securing data management

-Looking forward: analysing how tomorrow's technology is set to impact on today's dynamic challenges

With senior military and industry expert speakers presenting at the event, delegates will have the opportunity to explore emerging aircraft technologies, strategic planning and future platforms to take Air Mission Planning into the next generation.

The event brochure with the full agenda and speaker line-up is available to download on the website. Register at <http://www.airmissionplanning.co.uk/einPR5>
