

Attorney Kelly Hyman Discusses Top 10 Reasons to Dump Trump

FORT LAUDERDALE, FL, UNITED STATES, February 20, 2020 /EINPresswire.com/ -- Although President Donald Trump was acquitted of impeachment charges earlier this month, that doesn't mean his hands are clean. [Attorney Kelly Hyman](#), an esteemed Miami-based lawyer, and Democrat political and legal analyst has been featured on numerous television and radio spots over the past several months for her candid and eloquent take on why President Trump should not be re-elected in 2020. She is also the author of the book, "Top 10 Reasons to Dump Trump in 2020."

Undoubtedly, Trump is one of the most divisive political figures in recent world history. He is also the first president to simultaneously be the subject of a formal impeachment investigation while running for re-election.

[Kelly Hyman](#) is one of many Americans who questioned his motives and qualifications and opposed his candidacy from the beginning. The president's actions since 2016 have reinforced her position on the matter, to say the least. She said there are several reasons Trump should absolutely not be re-elected, but her book presents the 10 strongest arguments for the cause.

Kelly Hyman's top-10 list includes the former reality star and business mogul's "constant lying," and spreading false and misleading information, as well as his conflicts of interest, including his dealings with Ukraine as well as unjust and inhumane immigration and deportation policies and strategies. The attorney also names Trump's endangerment of the environment and various animal species, as well as his rollbacks of water protection policies, among other serious issues.

"It's horrible for future generations," she said of Trump's actions and the fallout of his presidency on Politics Done Right with Egberto Willies.

In her book, attorney Kelly Hyman illustrates how all sects of society, including the working class, have been negatively affected by the Trump administration. She notes that this is the time for a change and hopes her book will motivate readers to make an educated decision when they head to the polls.
