The Women of Worth Award will go to a woman that not only knows her worth, but she also knows the worth of other women by encouraging and supporting them to know who they are in their community.

The Guiding Light Award will go to a deserving woman or man that is out in the community advocating and making a difference in the lives of women and children in their community.

According to Dr. Juma Nashon, “we are excited to be a part of the International Every Girl Wins Day and through this day we will not only impact the local community but the whole country.”

Dr. Christine Kozachuk states, "I believe that as we work with local leaders to celebrate the International Every Girl Wins Day, we will inspire others to collaborate with us to change the world".

[The Every Girl Wins Institute was created based on the life skills](#) and observations of women of the world from the founder. What she has experienced is the beliefs of women are holding them back from creating the life they deserve. Over and over again, she would hear women talk about not being confident enough or worthy enough because of certain circumstances that have happened in their lives.

The founder herself had also experienced the same things in her own life from childhood poverty, being a child bride with three children by the time she was eighteen. Having been abused physically, mentally, emotionally, and sexually, she understands suffering and feeling unworthy. She never let that stop her from winning and creating the life she deserved.
