PetCell Anti-Aging Joint Formula with CBD

GrowthCell's Proprietary Amino Acid Complex plus CBD increases the efficacy of CBD in these ways:

1. by driving more CBD into the blood stream through a process called pinocytosis in the gut bypassing the liver
2. with the growth factors in this complex acting as a full agonist and stimulating the CB1 and CB2 receptors to draw in the CBD without the presence of THC
3. micro RNAs enhance intercellular signalling and direct the CBD where it needs to go in the body
4. endocannabinoid support system which includes 2-AG and AEA endocannabinoids

The secret to understanding this powerful synergy is simple. This proprietary extract already contains the vital endocannabinoid compounds and receptors that are critical for human health.

The speakers and sessions GrowthCell is hosting in a Masterclass include:

- Nicco R., Cognitive Neuroscience Researcher, on "Personalizing Cannabinoid Consumption Using DNA"
- Dr. H.J. Raza, MD/PhD, Internationally respected Physician, Researcher, Educator & Activist, on "What Makes GrowthCell + CBD Formulas Unique" and "The Benefits of GrowthCell Technology &

How It Works In The Body"

- Vernon Parkhurst, Managing Consultant & Visionary with GrowthCell Global on "How GrowthCell Formula Offers Missing Nutrients Essential To The Lifespan Of Your Pet"

"We are looking forward to sharing our team knowledge and doctor formulated white label products enhanced with GrowthCell's award winning CBD innovation" says Pam Lehr, Chief Business Development Officer, of [GrowthCell Global Corp.](#)
