About Salarius Ltd

Salarius is the developer and manufacturer of a proprietary low-sodium salt called MicroSalt®. They are passionate about improving lives with healthier food and are taking the lead in the industry by providing the best low-sodium salt solution, based on the mechanical transformation of the salt particle itself. This solution is the only one that delivers real salt flavor, because it is salt. Our new technology produces salt crystals that are approximately one hundred times smaller than typical table salt, delivering a powerful saltiness as the micro-grains dissolve in the mouth, with approximately 50% less sodium consumption.

Additionally, the ultra-small particle size enhances product adhesion, which reduces waste and provides enhanced flavor consistency. MicroSalt® and SaltMe!® are registered trademarks of Salarius Ltd.
