

# Owner of ServiceMaster By Glenn's, Keith Grella, Renews BOTH Florida State Mold Assessor and Remediator Licenses

*Keith Grella, owner of ServiceMaster By Glenn's, completed his Mold Remediator and Mold Assessor licenses in February with a perfect score of 100%.*

VERO BEACH, FLORIDA, UNITED STATES, March 2, 2020 /EINPresswire.com/ -- Did you know only 14 Mold Remediators and 15 Mold Assessors have current and active licenses in Indian River County? The state of Florida requires remediators and assessors to complete 15 hours of training every two years to keep certifications current and active. When restoring a home or business after a disaster, choosing a Florida state certified Mold Remediator or Mold Assessor is crucial to the success of a restoration project. This certification ensures the professional is trained in choosing the correct materials, equipment and methodology to ensure that water damage, fire damage or mold damage restoration will be successful and free of future mold-related issues.

Keith Grella, owner of ServiceMaster By Glenn's, completed his Mold Remediator and Mold Assessor licenses in February with a perfect score of 100% well before the July 31, 2020 deadline. This ensures he is up to date with the best practices and follows regulatory guidelines in the restoration of mold, water, fire or smoke damage.

The 14 hours of continuing education to renew both mold assessor and remediator licenses included training and review of the following material:  
6-hour review of water moisture intrusion,

4-hour review of the importance of mold safety,  
2-hour review of instruction in writing reports and  
2-hour review for Florida's state standards and practices.

“

Staying certified and current in this industry is a must”  
*Keith Grella*

“Staying certified and current in this industry is a must,” said Grella, an expert remediator with 26 years of experience. “Here at ServiceMaster By Glenn's, we make

sure all of our restoration technicians are certified and well-trained to provide the best approach and management of disaster restoration projects for our customers.”

Since the state of Florida tightened the requirements on mold treatment and removal in 2010, the number of certified Mold Assessors and Mold Remediators in the county has only decreased.

Current mold remediator and assessor certifications ensure individuals follow industry best practices.

Before a consumer engages a restoration company to perform water, mold, fire or smoke damage restoration, make sure to visit [www.myfloridalicense.com/dbpr](http://www.myfloridalicense.com/dbpr) to ensure the company is certified.

Steps to verify certification:

1) Visit

[www.myfloridalicense.com/dbpr](http://www.myfloridalicense.com/dbpr)

2) Click on verify a license

3) Select search by license type

4) Choose license category of mold related services and mold category of mold remediator or mold assessor.
