ABOUT THE NALIN AND NASEEB FOUNDATION

The Nalin and Naseeb Foundation was established in January of 2017 following a personal and tragic experience of premature delivery. There are many aspects of premature birth: maternal and infant health and mortality risks, developmental risks for infants, mental and emotional distress for loved ones. The Nalin and Naseeb Foundation's vision is a world where no family experiences the aftermath of premature birth uninformed and alone. Our guiding principal is to support, inform and direct families in the ensuing period after premature birth. We partner with health organizations, service providers and have worked with hundreds (and growing) of families and their preterm babies. We believe that all children deserve a chance to meet their life potential.
