Global Physiotherapy Devices Market expected to generate revenue of around USD 2749.4 million by end of 2024, growing at a CAGR of around 6.5% between 2018-2024”

Zion Market Research

Physiotherapy is a physical treatment provided to people and patients to build up, restore, maintain and continue the maximum movement, flexibility and functioning ability during their lifespan. Physiotherapies are the services provided in the conditions where the functional movement of the body is threatened by injury, aging, pain, diseases, disability, and environmental factors. Increasing prevalence of neurological and cardiovascular diseases globally will significantly stimulate the growth of physiotherapy devices market throughout the forecast period. Moreover increasing road accidents, injury cases, and rising geriatric

population will fuel the demand for physiotherapy devices market globally.

The physiotherapy devices market based on product category is segmented into equipment and accessories. Among which the equipment segment contribute for the largest market share owing to raising awareness about clinical benefits associated with physiotherapy treatment. Moreover increasing penetration of physiotherapy services and rapid adoption of physiotherapy devices by health practitioners due to ease of accessibility and use will propel the market growth during the forecast period. The equipment segment is further sub-segmented into hydrotherapy, electrotherapy, heat therapy, cryotherapy, ultrasound, continuous passive motion (CPM), laser

therapy, and others. The accessories segment is bifurcated into orthoses and assistive devices in the global physiotherapy devices market.

Based on applications, the physiotherapy devices market is segmented into musculoskeletal, neurology, cardiovascular, and others. The neurology market is anticipated to value at highest market share in global physiotherapy devices market, owing to rising prevalence of neurological disorders and injuries coupled with long-time treatments. Followed by neurology, the musculoskeletal and cardiovascular segments are expected to grow at the highest CAGR owing to rising preference for physiotherapy for musculoskeletal problems and affordable cost of therapy will significantly boost the market growth over the forecast period.

Based on end-user, the market for physiotherapy devices market is segmented into hospitals, physiotherapy clinic, rehabilitation center, and others. Hospitals segment is anticipated to grow at a faster rate due to the enhanced utilization of physiotherapy applications in order to deliver reasonable and early care to the patients. Whereas, the increasing number of injuries and preference for physiotherapy clinic owing to affordable cost will boost the segment growth over the forecast period.

Regionally North America, Latin America, Europe, Asia Pacific, and the Middle East & Africa are the major five regions in which the global physiotherapy devices market is segmented. Among which, North America accounted for the highest share in the global physiotherapy devices market in 2017 and is expected to remain dominant over the coming years. The European Physiotherapy Devices Market is anticipated to gain a significant revenue share in the forecast period. Asia Pacific region is expected to record the highest CAGR owing to the increasing prevalence of neurological disabilities among the population, increasing awareness about physiotherapy treatment, and demand for better healthcare facilities is impacting the market for the physiotherapy devices market in this region.

Some of the key players in physiotherapy devices market include Patterson Medical, Zynex Medical Inc., BTL Industries, Dynatronics Corporation, Life Care Systems, A. Alego Limited, DJO Global, EMS Physio Ltd., Enraf-Nonius, HMS Medicals Systems, and others.

This report segments the global physiotherapy devices market as follows:

Global Physiotherapy Devices Market: Product Segment Analysis

- Equipment
 - Hydrotherapy
 - Electrotherapy
 - Heat Therapy
 - Cryotherapy
 - Ultrasound
 - Continuous Passive Motion (CPM)
 - Laser Therapy
 - Others (Therapeutic Exercises, Traction, and Wax Therapy)

- Accessories
 - Orthoses
 - Assistive Devices

Global Physiotherapy Devices Market: Application Segment Analysis

- Musculoskeletal

Neurology
Cardiovascular
Others

Global Physiotherapy Devices Market: End-User Segment Analysis

Hospitals
Physiotherapy Clinic
Rehabilitation Center
Others (Home Healthcare, Schools)

Global Physiotherapy Devices Market: Regional Segment Analysis

North America
The U.S.
Europe
UK
France
Germany
Asia Pacific
China
Japan
India
Latin America
Brazil
The Middle East and Africa

About Us:

Zion Market Research is an obligated company. We create futuristic, cutting-edge, informative reports ranging from industry reports, the company reports to country reports. We provide our clients not only with market statistics unveiled by avowed private publishers and public organizations but also with vogue and newest industry reports along with pre-eminent and niche company profiles. Our database of market research reports comprises a wide variety of reports from cardinal industries. Our database is been updated constantly in order to fulfill our clients with prompt and direct online access to our database. Keeping in mind the client's needs, we have included expert insights on global industries, products, and market trends in this database. Last but not the least, we make it our duty to ensure the success of clients connected to us—after all—if you do well, a little of the light shines on us.
