The Urby concept is a complete re-think of the residential rental-housing concept that is design driven, tailored to fit every neighborhood and developed with the needs of the contemporary urban renter in mind. As a highlight of the partnership, Stamford Urby residents can benefit from this newly added amenity; a furnished apartment guest suite in their building, perfect for family or friends visiting for a few days.

Compass Furnished Apartments is known for their

attention to detail and ability to create a seamless and stress free living experience for short term residents. Their clientele of corporate business travelers looking for tailored, modern and environmentally driven buildings will support the short term requests outside of long term Urby

residents.

“At Compass, we measure our success as much as our impact on the communities we serve as by our sales and profits. When forming partnerships, we look for like-minded brands that put thought into each step of the guest experience as well as their community,” said Chris Fleming, Compass Furnished Apartments CEO. “We feel that Urby perfectly marries into our Compass guest experience, and we are excited to be part of their community and offering.”

The furnished apartment guest suites are available to rent as of March 3rd, 2020.
