

# Global Pea Protein Market Share Projected to Reach USD 1596 Million By 2026: Facts & Factors

*Global Pea Protein Market is expected to grow at a CAGR of 14% and is anticipated to reach around USD 1596 Million by 2026.*

NEW YORK, UNITED STATES, March 5, 2020 /EINPresswire.com/ -- Facts and Factors report "[Pea Protein Market](#) By Type (Isolates, Concentrates, and Textured), By Form (Dry and Wet), Source (Split Yellow Peas, Lentils, and Chickpeas), By Application (Meat substitutes, Performance nutrition, Functional foods, Snacks, Beverages, Bakery products, Confectionery), and By Region: Global Industry Outlook, Market Size, Business Intelligence, Consumer Preferences, Statistical Surveys, Comprehensive Analysis,

Pea Protein Market

Historical Developments, Current Trends, and Forecasts, 2020–2026" states that the global Pea Protein Market in 2019 was approximately USD 740 Million. The market is expected to grow at a CAGR of 14% and is anticipated to reach around USD 1596 Million by 2026.

Pea Protein is extracted from yellow or green peas and used in protein-enriched foods and protein supplements. The presence of essential amino acids in the pea protein helps improve blood circulation, calcium absorption, weight management, maintain healthy muscle, improve metabolism, and also regulate blood sugar levels. These properties of pea protein are likely to help surge its sales in the coming years. The lactose-free and 100% vegan nature makes it safe for dairy product sensitive individuals.

## Market Drivers:

The Pea Protein market is found to experience significant growth owing to the increasing use of bakery goods, dietary supplements, and beverages that are anticipated to drive the market. The rising demand for an alternative for meat and the growing concerns of lactose intolerance among grown-up has increased the demand for gluten-free products, thereby fuelling the growth of the Pea Proteins market. Additionally, the surging awareness concerning nutrition

amelioration and inclination of people toward vegetarian foods is expected to drive the global Pea Protein market. The increasing expenditure on convenience food products, the importance of a flexitarian diet likely plays a crucial role in enhancing the product demand.

Market Segment Dominance:

Isolates category is estimated to hold the majority of the market share in the Pea Protein market

The isolate category is projected to dominate the global Pea Protein market owing to its increasing use in enhancing the performance of nutrition products, cereals, confectioneries, and plant-based dairy & meat products.

(You may enquire a report quote OR available discount offers to our sales team before purchase.)

Meat substitutes category is anticipated to hold the largest share in the global Pea Protein market

The rising demand for meat substitutes, low processing costs, and easy storage have increased pea proteins' acceptance in the plant-based meat market, thereby enhancing the market growth.

The dry category is expected to dominate the market

The dry category is expected to lead the global Pea Protein market owing to its rising use for various applications. In addition, its properties such as sustainability and improved functionality supplement the Pea Protein market expansion during the forecast period.

This report segments the global Pea Protein market as follows:

Global Pea Protein Market: Type Segmentation Analysis

- Isolates
- Concentrates
- Textured

Global Pea Protein Market: Form Segmentation Analysis

- Dry
- Wet

Global Pea Protein Market: Source Segmentation Analysis

- Split Yellow Peas
- Lentils
- Chickpeas

Global Pea Protein Market: Application Segmentation Analysis

- Meat Substitutes
- Performance Nutrition
- Functional Foods
- Snacks
- Beverages
- Bakery Products
- Confectionery

About Us:

Facts & Factors is a leading market research organization offering industry expertise and scrupulous consulting services to clients for their business development. The reports and services offered by Facts and Factors are used by prestigious academic institutions, start-ups, and companies globally to measure and understand the changing international and regional business backgrounds. Our client's/customer's conviction on our solutions and services has pushed us in delivering always the best. Our advanced research solutions have helped them in appropriate decision-making and guidance for strategies to expand their business.
