

# British Army to discuss RTR Developments at Future Armoured Vehicles Weapon Systems 2020

*SMi Reports: Captain Tom Quant from the British Army confirmed to present at Future Armoured Vehicles Systems 2020*

LONDON, UNITED KINGDOM, March 12, 2020 /EINPresswire.com/ -- The 4th annual Future Armoured Vehicles Weapon Systems 2020 will be held on the 3rd and 4th June 2020 in London, UK, where delegates will have the opportunity to hear updates on the latest weapon systems and munitions developments.

This year's conference will host experts from the most forward-thinking nations who will provide detailed analysis and an overview of cutting-edge weapon and large calibre ammunition systems, and how they are revolutionising mounted close combat lethality.

There has been a number of significant developments over the past 12 months with the British Army's MBT Challenger 2, including new turret improvements and the introduction of an innovative situational awareness system called IronVision. Both initiatives have been part of the Streetfighter Project to enhance the tank for urban operations. Within the project there have been 3 areas of modification including infantry-tank co-operation, situational awareness and lethality. \*

At this year's conference, Captain Tom Quant, Regimental Intelligence Officer and Project Streetfighter Lead, Royal Tank Regiment, British Army, will be sharing the latest updates in his session 'RTR Developments for Urban Conflict - CR2 Streetfighter' where he will discuss in detail:

- Enhancing all round lethality for the CR 2 MBT
- Utilising remote weapon systems in order to engage small to medium size targets
- Selecting the right upgrades for fighting in built up, contested urban environments

The event brochure with the full agenda and speaker line-up is now available to download on the website.
