L&A Tents

If you've picked a [clear top tent](#) or tent with clear walls then that probably means your event is taking place at a venue that is beautiful. Take advantage of your clear tent and beautiful surroundings by picking decor that won't pull away from the landscape. Consider keeping it simple rather than adding a lot of drapes and big decorative items. Something as simple as string lights can be the perfect match for your clear top tent. Another option is to added colored lights, as the clear plastic will shine with color!

For pole tents, you have the option to play with draping fabrics or pole covers. You can add gracefully drapes between the structures to add a classy touch to the tent. It's in the design of a pole tent that, well, poles will be involved where your guests will be. Rather than let the poles stand out, cover them so they feel apart of your theme and not just a necessary structure.

If you went with a frame tent, especially a gable end type, then a custom entrance might be a perfect choice to take your event's decor and theme to the next level of amazing. You can also

opt-in for chandeliers that not only handle lighting but also style. If you went for a solid top rather than a clear, then you have the ability to try light projections! You can project an image or a full moving experience to the ceiling of your tent that matches your theme perfectly.

The options are endless and there is some decor that will go with anything and everything you wanted for your event. Colored lights, paper lanterns, fairy lights, and drapes can be used in many ways making the classicly versatile for any event type. So long as you know your color and theme you have endless possibilities to work with. Be sure to ask your tent rental provider about their decor options and for their professional opinion.
