

Harris School Nutrition Solutions Now Integrates with PowerSchool

Easy, secure payments for all school activities are now possible through Harris School Nutrition & PowerSchool Integration

NIAGARA FALLS, NY, UNITED STATES, March 10, 2020 /EINPresswire.com/ -- [Harris School Nutrition Solutions](https://www.harrisschoolsolutions.com/) is pleased to announce a new integrated payment partnership with PowerSchool. Harris, based in Niagara Falls, NY, is a leader in providing comprehensive and innovative school nutrition software and hardware solutions and support across North America. The Folsom, California-based PowerSchool offers web-based and mobile app technology solutions across schools and districts. This partnership is a natural blending of the two companies' shared missions and priorities to provide comprehensive, integrated technology solutions to schools and districts.

Harris's EZSchoolPay payment processing software will now integrate with PowerSchool solutions to create a simplified and more efficient tracking, payment, and reporting experience for school activity fees. When a school or district uses PowerSchool to assign and track expenses for activities such as sports, instruments, field trips, or other activities, EZSchoolPay will then handle the subsequent payments through this seamless integration.

With a demonstrated vision for success that is rooted in addressing and solving known pain points and challenges through focused support for students, educators, and staff, the relationship between Harris and PowerSchool is a natural fit.

"At Harris, we are so proud to partner with PowerSchool to support full integrations of secure, seamless, and simplified payment options for school activities," said Melissa Irick, Executive Vice President of Harris School Nutrition Solutions. "We know that complicated payment situations frustrate schools and parents, and ultimately affect students the most. When the tracking and payment system is complex or inefficient, it can sometimes prevent students from taking part in meaningful and beneficial activities. Our partnership is about two school technology leaders coming together to empower schools and districts across the country to give administrators, educators, parents, and students a complete set of integrated tools to unlock efficiency and potential."

Harris School Nutrition Solutions provides a comprehensive suite of programs, services, tools, and support, including point-of-sale (POS) and electronic free and reduced-lunch applications, as well as regulatory, compliance, reporting, budgeting. Additional functionalities support individual school nutrition programs across school districts nationwide.
