

NASA SEWP V-HPC Clusters, Servers, Storage Offered by Koi Computers

Koi Computers holds the elite NASA SEWP V contract for technology that includes HPC clusters, HPC storage, and servers.

CHICAGO, ILL., U.S., March 13, 2020

/EINPresswire.com/ -- [Koi Computers](#), one of the leading complete HPC technology solution providers, currently holds the elite NASA SEWP V contract for technology that includes HPC clusters, HPC storage, and servers. The company has earned satisfactory ratings in CPARS and Past Performance.

Koi Computers Federal Business Development Manager Catherine Ho said, "Winning the NASA SEWP V contract was one of the highlights of our 25 years in business. We were awarded this contract after passing a rigorous vetting process that left only the finest, most reputable technology providers. The contract helps streamline procurement and make it more efficient for federal government buyers to purchase."

The selection criteria for contract holders includes: product quality; strong, leading-edge technology solutions; competitive pricing; industry experience; the ability to fulfill large orders; a proven track record of successfully working with the federal government; a comprehensive contract/quality management plan; and certification to specific ISO standards.

Items within the scope of SEWP V include:

- High performance servers and database servers
- Mass storage and network devices
- Advanced video and visualization solutions
- Computer support devices
- Security systems and tools
- Audio-visual systems
- Warranty and maintenance
- Implementation and installation
- Product-based training
- Product-based engineering services, etc.

“

The contract helps streamline procurement and make it more efficient for federal government buyers to purchase”

Koi Computers Federal Business Development Manager Catherine Ho

NASA SEWP V is a multi-award U.S. government procurement vehicle for commercial IT products and

product-based services. It offers innovative procurement processes, premier customer service and outreach, acquisition insight, and partnership with government entities and industry.
