Goldstein Research analyst forecast that the Middle East Steel Rebar Market is expected to grow at a CAGR of 6.5% by 2025 to reach USD 11.6 billion by 2025

Goldstein Research recently published a report titled “Middle East Steel Rebar Market Outlook 2025” the middle east steel rebar market is estimated to reach USD 11.6 billion by 2025, growing at a CAGR rate of 6.5% through 2025.

Growing fast urbanization and increasing interest in the development division to create framework and to accelerate the monetary development by creating fabricating segment particularly in creating nations, for example, Saudi Arabia and UAE among others are driving the development of Middle East steel rebar showcase. The price of rebar being imported into the area now seems to be stabilizing, following several months of hikes. Demand is still high in the construction boom economies of the Gulf Cooperation Council (GCC) countries. But the increasing presence of cheaper Chinese steel and a decision by Turkish producers to reduce their offer prices has cooled the market. Further, Middle East steel producers have had a rocky voyage in the last couple of years. The very low prices caused by excessive Chinese exports in 2015 reversed during 2016 and 2017.

Market dynamic / Challenges & Restraints to Growth Market

Many steelmakers (not just Chinese) view the Middle East as a an outlet for excess production. There are significant affordable housing requirements across the region, and more specifically in Saudi Arabia, Kuwait, and Bahrain, where housing schemes are being planned to build a large number of new units. Different parts of the Middle East find themselves in different situations in regards to price volatility of raw materials in producing steel and the oil prices. The major change that has occurred has been in the GCC market. The Middle East and in particular Iran and the GCC are still relatively low cost producers and as such do retain an advantage in exports relative to many other regional producers.
