Further key findings from the report suggest

- The Network Management System market held a market share of USD 7.26 Billion in the year 2018 and forecasted to grow at a rate of 8.3% during the forecast period.
- •In regards to Component, the Solution segment generated the highest revenue of USD 5.23 Billion in 2018, with a growth rate of 8.0% during the forecast period. The revenue generated by the Solution segment is resultant of increasing concern about data security and associated

elevated demand & deployment of the system in maintaining and monitoring communication infrastructure.

- •In the context of Organization size, the Large Enterprises segment yielded a higher revenue of USD 4.72 Billion in 2018, with a CAGR of 7.9% during the forecast period. The high emphasis and need for cloud monitoring systems in the operation of these enterprises due to the elevated requirement for maintaining data protection contributes to the revenue generated by this segment.
- •In the context of Deployment Type, the On-Premises segment held a larger market share of 70.0% in 2018, with a growth rate of 7.7% during the forecast period. Advantages associated with on-premises NMS like scope of configuring solutions as per the requirement, control on data security, performance reliability, and minimal risk of maintenance outages or connectivity issues have resulted in its increased preference over cloud-based deployment among the end-users, which contributes to the segment's occupied market share.
- •In regards to the End-user, the IT & Telecom segment held the largest market share of 28.0% in 2018, with a growth rate of 8.2% during the forecast period. The fact that NMS solutions help the IT & Telecom industry in enhancing the network infrastructure, along with resolving the risks related to downtime, results in high deployment of the solution in the functioning of this industry, contributing to the market share held by the segment.
- •In context to region, Asia Pacific is projected to witness the fastest growth rate of 9.6% during the forecast period, which is expected to occupy 24.1% of the market by 2026. The growth rate experienced by the region is attributed to its digital transformation, well-developed cloud infrastructure, and government initiatives like Digital India.
- •Key participants include IBM Corporation, SolarWinds Inc., Riverbed Technologies, Inc., Broadcom, Inc. (CA Technology), BMC Software, Inc., Cisco Systems, Inc., Nokia Corporation, BMC Software, Inc., Oracle Corporation and NetScout Systems, Inc.

For the purpose of this report, Reports and Data have segmented the Global Network Management System market based on Component, Organization Size, Deployment Type, Enduser, and region:

Component Type Outlook (Revenue, USD Billion; 2016-2026)

- •Bolution
- Bervices
- •Blatform

Organization Size Type Outlook (Revenue, USD Billion; 2016-2026)

- •□arge Enterprises
- •Bmall and Medium-Sized Enterprises

Deployment Type Outlook (Revenue, USD Billion; 2016-2026)

- •**I**lloud
- On-Premises

End-user Type Outlook (Revenue, USD Billion; 2016-2026)

- Banking, Financial Services, and Insurance
- •II & Telecom
- Manufacturing
- •Government
- Transportation & Logistics

- Healthcare
- •Media & Communication
- Retail
- Others

Regional Outlook (Revenue, USD Billion; 2016-2026)

North America

## **About Reports and Data**

Reports and Data is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions purely focus on your purpose to locate, target and analyze consumer behavior shifts across demographics, across industries and help client's make a smarter business decision. We offer market intelligence studies ensuring relevant and fact-based research across a multiple industries including Healthcare, Technology, Chemicals, Power, and Energy. We consistently update our research offerings to ensure our clients are aware about the latest trends existent in the market. Reports and Data has a strong base of experienced analysts from varied areas of expertise.
