

Broadcast Communication Equipment Market | Worth \$5.31 billion by 2023

TheBusinessResearchCompany.com announces adding new report "Broadcast Communication Equipment Global Market Report 2020" to its research database.

LONDON, GREATER LONDON, UK, March 25, 2020 /EINPresswire.com/ -- The global broadcast communication equipment market is expected to grow at a rate of about 2.62% and reach \$5.31 billion by 2023. Rise in disposable income coupled with affordability has increased purchasing power of individuals and in turn propelled the market for cellular telephones, driving the broadcast communication equipment market. However, security threats, such as hacking of GPS tracking applications, are a major challenge in the broadcast communication equipment market.

Major Players in the Broadcast Communication Equipment market are Ericsson, Harris, Motorola, Lockheed Martin, The Boeing Company, Raytheon, L-3 Communications, ITT and Datapath Inc."

Abdul Wasay

The broadcast communication equipment market consists of sales of broadcast communication equipment and related services. Broadcast communication equipment

establishments make radio and television broadcast and wireless communications hardware. Products made by these establishments include transmitting and receiving antennas, cable television equipment, GPS equipment, cellular phones, mobile communications hardware, radio and television studios, and broadcasting hardware.
