

MiCOM Labs Cloud-Based Automated Solution Minimizes Effects of COVID-19

Cloud-Based Integrated Applications Infrastructure

PLEASANTON, CALIFORNIA, UNITED STATES, March 26, 2020 /EINPresswire.com/ -- Over the last decade, [MiCOM Labs](#) has developed an integrated cloud-based application platform which addresses the regulatory compliance issues faced by manufacturers for placing products on the global market.

Given today's COVID-19 situation and government-imposed travel bans, the MiCOM Labs cloud based solution is now essential for manufacturers providing uninterrupted online access to product testing and certification while maintaining the mandated social distancing.

As an accredited test and certification facility client data security is one of our top priorities. For your protection, MiCOM Labs has implemented strict layered security safeguards to protect customer intellectual property and to ensure that clients can securely access their program information from any location and on multiple platforms.

MiCOM Labs Available Software Suites

Take advantage of our cloud-based applications from your dedicated landing page. View project status of new and existing projects from a single location.
