

Pets With Cancer Are Not Overlooked As PetCure Oncology Provides Care for Pets with Cancer During COVID-19

PetCure Oncology, and its National Network Clinical Team of Board-Certified Radiation Oncologists are providing enhanced remote visits at no cost during COVID19

DEERFIELD, ILLINOIS, UNITED STATES, March 26, 2020 /EINPresswire.com/ -- [PetCure Oncology](#) Continues to Provide Care for Pets with Cancer During COVID-19

A national network leader in advanced radiation oncology for pets, PetCure Oncology, and its Clinical Team of Board-Certified Radiation Oncologists are providing enhanced remote visits at no cost during the COVID-19 pandemic.

(Deerfield, IL) March 24, 2020: PetCure Oncology, a leading national veterinary radiation therapy provider for pets with cancer, announced today new enhancements to PetCure Oncology Telehealth options available to pet families and referring veterinarians. PetCure Oncology Telehealth Visits offers a new way for pet families and referring veterinarians to connect with PetCure Oncology's board-certified

Dr. Neal Mauldin and clinical team members preparing patient for Stereotactic radiosurgery (SRS) is a non-surgical radiation therapy.)

“

“We are encouraged to expand our telehealth options during these uncertain times to protect the health of our pets.”

Neal Mauldin

radiation oncologists from the safety and comfort of their homes or veterinary practices to discuss potential treatment options for their beloved pets diagnosed with cancer.

“We are encouraged to expand our telehealth options during these uncertain times as a way to protect the health of our pet families, veterinarians, and our team members so that we can continue to treat pets with cancer,” said Neal Mauldin, DVM, DACVR (RO), DACVIM (Oncology and

Internal Medicine), PetCure Oncology Chief Medical Officer. “Currently, many veterinary critical care services and academic hospitals are closing in response to this current crisis. Telehealth is and continues to be at the core of our treatment model. Therefore, we are in a good position to continue to serve pet families while protecting public health.”

One of our pet families we are treating sent us a note regarding the Telehealth Visit. “During this difficult time with my dog Riley, the staff and hospital have been very accommodating. We are in a global pandemic and the staff here are doing everything they can to provide treatment. This

hasn't been the case at other facilities. I don't blame them, but your team is going above and beyond. You're treating our pets like the family they are."

Visit our website to learn more about PetCure Telehealth Visit (<https://petcureoncology.com/covid/>) and how it can help you or your beloved pet through the pet cancer journey.

PetCure Telehealth Visits are available now and are provided at no cost during the COVID-19 crisis. For more information, call one of our Pet Advocates at 833-PET-HERO, visit PetCure Telehealth Visit or connect with a PetCure specialist by emailing to Hope@PetCureOncology.com.

###

About PetCure Oncology: PetCure Oncology was founded in 2014 with a simple mission to make human-caliber cancer care available to pets. Since opening their first treatment center in 2015, PetCure has treated more than 3,000 pets and emerged as the leading provider of veterinary radiation therapy in the United States. With six treatment centers across the country and counting, PetCure also provides innovative teleconsultation services for both veterinarians and pet owners. For more information, contact a PetCure Pet Advocate at 833-PET-HERO.
