

# Konstant Infosolutions Takes Steps to Contain the Spread of COVID-19 and Continue to Operate For Their Clients Remotely

*Konstant Infosolutions World's Top Mobile Application Development Company to Operate For their clients remotely due to COVID-19.*

PALO ALTO, CALIFORNIA, UNITED STATES, March 28, 2020 /EINPresswire.com/ -- Efficiently Utilizing the Home-Stay Period, everyone at [Konstant Infosolutions](#) is striving to recover and expand their services. Konstant's management directed all their employees to work-from-home in accordance with lockdown measures by the Central Ministry of Health and Family Welfare and Local Health Departments late last week.

Showing tremendous credibility, and doing every bit to fight off amid a widespread economic shutdown caused by coronavirus outbreak, Konstant Infosolutions, [premier mobile app development company](#), assures

their clients that their services will not be cut off due to stranded restrictions. We strive to be Keynesians, waking up to the economic fallout of Covid - 19, and moving to address it, with all that we can, sometimes going beyond, been considered unimaginable.

This near-total lockdown will change us for better - from taking one step close to being hygienic, reducing carbon footprints, saving wild animals, rebooting the social life and let normalcy resume within weeks. We support and enforce a tiered action plan, to pare back some of the restrictions when the outbreak relents, but immediately reinforce if infection rates pick up. We need to come together, understand the cause and possible functions in this scenario and set in place a strong mechanism to monitor the outbreak.

## About Konstant Infosolutions
