

Global HID Market | High Intensity Discharge Bulbs Industry 2020 Outlook

TheBusinessResearchCompany.com offers High Intensity Discharge (HID) Bulbs Global Market Report 2020 from its research database.

“

The global high intensity discharge [hid] bulbs market was worth \$1.8 billion in 2019. It is expected to grow at a compound annual growth rate (CAGR) of 6.23% and reach \$2.3 billion by 2023.

”

LONDON, GREATER LONDON, UK, March 30, 2020

/EINPresswire.com/ -- The global high intensity discharge (HID) bulbs market is expected to grow at a rate of about 6.23% and reach \$2.3 billion by 2023. Rising demand for bulbs with high luminaire value is driving the high intensity discharge bulb market. However, stringent energy efficiency standards and regulations imposed on HID lamps is acting as a restraint on the market.

The high intensity discharge (HID) bulbs market consists of sales of high intensity discharge bulbs which include high-pressure sodium lamps, mercury vapor lamps, and metal halide lamps. High-intensity discharge light bulbs and lamps are a family of gas-discharge arc lamps which create light by sending an electrical discharge between two

electrodes and through a plasma or ionized gas.

The global high intensity discharge (HID) bulbs market is further segmented based on type and geography.

By Type - The high intensity discharge (HID) bulbs market is segmented into metal halide light, high-pressure sodium light, xenon arc light, and others.

By Geography - The global high intensity discharge (HID) bulbs is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.

Trends In The High Intensity Discharge (HID) Bulbs Market

HID bulbs manufacturing companies are focusing on introducing new technologically advanced products into the market. In addition to design, manufacturers are also focusing on energy-efficiency by investing in in-house R&D and forming strategic partnerships. Manufacturers are focusing on producing HID lamps with limited light pollution and improved life as compared to LED and metal halide.

Potential Opportunities In The High Intensity Discharge (HID) Bulbs Market

With an increase in economy and growing demand due to growing population, the scope and potential for the global high intensity discharge (HID) bulbs market is expected to significantly

rise in the forecast period.

Major players in the market are Acuity Brands Lighting, Inc. (US), Lithonia Lighting (US), Bulbrite Industries, Inc. (US), Contrac Lighting (UK), Crompton Greaves Ltd. (India), EYE Lighting International of North America, Inc. (US), Feit Electric Company (US), General Electric Company (US), Halonix Limited (India), and Havells India Limited (India).

High Intensity Discharge (HID) Bulbs Global Market Report 2020 is one of a series of new reports from The Business Research Company that provides high intensity discharge (HID) bulbs market overviews, analyzes and forecasts high intensity discharge (HID) bulbs market size and growth for the global high intensity discharge (HID) bulbs market, high intensity discharge (HID) bulbs market share, high intensity discharge (HID) bulbs market players, high intensity discharge (HID) bulbs market size, high intensity discharge (HID) bulbs market segments and geographies, high intensity discharge (HID) bulbs market trends, high intensity discharge (HID) bulbs market drivers and high intensity discharge (HID) bulbs market restraints, high intensity discharge (HID) bulbs market's leading competitors' revenues, profiles and market shares. The high intensity discharge (HID) bulbs market report identifies top countries and segments for opportunities and strategies based on market trends and leading competitors' approaches.

Where To Learn More

Read High Intensity Discharge (HID) Bulbs Global Market Report 2020 from The Business Research Company for information on the following:

Markets Covered: global high intensity discharge (HID) bulbs market

Data Segmentations: high intensity discharge (HID) bulbs market size, global and by country; historic and forecast size, and growth rates for the world, 7 regions and 12 countries

High Intensity Discharge (HID) Bulbs Market Organizations Covered: Acuity Brands Lighting, Inc. (US), Lithonia Lighting (US), Bulbrite Industries, Inc. (US), Contrac Lighting (UK), Crompton Greaves Ltd. (India), EYE Lighting International of North America, Inc. (US), Feit Electric Company (US), General Electric Company (US), Halonix Limited (India), and Havells India Limited (India)

Regions: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

Time Series: Five years historic (2015-19) and forecast (2019-23).

Other Information And Analyses: PESTEL analysis, high intensity discharge (HID) bulbs market customer information, high intensity discharge (HID) bulbs market product/service analysis – product examples, high intensity discharge (HID) bulbs market trends and opportunities, drivers and restraints, key mergers and acquisitions, key metrics covered: number of enterprises, number of employees, global high intensity discharge (HID) bulbs market in 2020 - countries offering most new opportunities

Sourcing and Referencing: Data and analysis throughout the report are sourced using end notes.

Strategies For Participants In The High Intensity Discharge (HID) Bulbs Industry: The report explains a number of strategies for companies in the high intensity discharge (HID) bulbs market, based on industry trends and company analysis.

Opportunities For Companies In The High Intensity Discharge (HID) Bulbs Sector: The report reveals where the global high intensity discharge (HID) bulbs industry will put on most \$ sales up to 2023.
