

Oil and Gas Leaders Join Together to be Part of a Global Virtual Summit

Addressing crashing prices and the implications of the Corona Virus to the industry.

NAIROBI, KENYA, March 31, 2020 /EINPresswire.com/ -- Oil and Gas industry leaders will be part of a collaborative and global virtual summit at the [Oil & Gas Leadership and Success Virtual Summit](#) being held from 6th to 10th July, 2020.

This is an online-only event, in response to the covid-19 threat and driven by the great concern for the health and safety of speakers and participants, the organisers are keen to promote social distancing and remote working/attendance.

The event brings together the entire global oil and gas industry to discuss the challenges affecting the industry today, and to propose solutions that would help stimulate the industry revival.

A global effort is needed to help the industry ecosystem find ways to deal with low crude oil prices as well as the emerging threat of Corona Virus. Participants will learn of innovative ways to deal with the current crisis, and how businesses across the world can stay afloat.

Under the theme Oil & Gas - Providing Leadership and Succeeding in Times of Crisis, the virtual summit is organised and hosted by Joe Watson Gakuo who said "We are excited to host this event, and be part of those keen to provide a platform to discuss and look at the problems of the industry, and the solutions we need. We are passionate about the oil and gas industry, and the success of everyone in the value chain of close to our hearts."

This unique 2020 event is expected to have over 50+ speakers, and welcome industry leaders, policy makers and professionals from across the globe.

You will have full access to a 5-day online-only event, that will include industry leaders interviews and presentations, panel discussions by various experts and high-level discussions around ways to have the industry working again, and how to move forward.
