

VCC Creates Crisis CoLAB Initiative to Fight Coronavirus

VCC enlists its designers to help medical OEMs fight the virus — but we need your help

SAN DIEGO, CALIFORNIA, UNITED STATES, April 1, 2020
[/EINPresswire.com/](https://www.einpresswire.com/) -- VCC Creates Crisis CoLAB Initiative to Fight Coronavirus

[Free Design and Engineering Services for Medical Equipment Providers](#)

Visual Communications Company (VCC), a recognized global leader in the illuminated electronics market with advanced indication and HMI solutions, is looking to partner with medical manufacturers to combat COVID-19.

As coronavirus cases continue to climb, VCC is seeking medical equipment providers and OEMs in need of help designing and prototyping solutions to combat the virus.

VCC's extensive design capabilities can support the medical community through:

Expertise in engineering design for medical equipment

“

Innovation is key to making progress against COVID-19. And our team has the skills and capabilities to partner with medical equipment providers to make a difference on the front lines”
Thomas Macon, VP of Sales

An experienced and highly motivated team of mechanical and electrical product designers and engineers

Design software for creating and testing solutions

3D printing know-how and machinery

Proven performance in designing and prototyping PCB assemblies, light engines, and other electronic components

“We can't just sit idly by during this crisis,” stated Thomas Macon, VCC's VP of Sales. “Innovation is key to making progress against COVID-19. And our team has the skills

and capabilities to partner with medical equipment providers to make a difference on the front lines.”

How to apply for help:

OEMs and medical equipment providers can complete a form found here: <https://vcclite.com/crisis-collab/https://vcclite.com/crisis-collab/>

The team will quickly review the application and formulate an action plan.
