

Treasure Investments Corporation Turns Silver into Gold

BATTLE GROUND, WASHINGTON, USA, April 28, 2020 /EINPresswire.com/ -- Treasure Investments Corporation dba Foundry Michelangelo is creating and casting pure silver sculptures from the most famous artists in history. Foundry Michelangelo (FM) owns the molds to over 2,000 original sculptures representing over 230 artists that include Fredric Remington, Charles Russell, [Bernini](#), Canova, Michelangelo, Rodin, [Ghiglieri](#), and [many others](#). The images from the molds are diverse and cover a broad spectrum of subject matter, including biblical, cultural, mythological, western, wildlife, and range in sizes from just a few inches in size to over 50 feet in height. FM primarily casts work in bronze, but the demand for the silver work has been dramatically increasing. In 2018, FM cast a masterpiece of an eagle By Lorenzo Ghiglieri entitled American Patriot in 1,000 troy ounces of pure .999 fine silver, made the piece a

limited edition of only 10 and priced it at \$200,000. 9 of the 10 have sold with a deal pending for the last one. "Our Silver pieces are stunning and are the talk of all the trade shows we attend. We have many 1,000 troy ounce pure silver pieces that we sell, including our lion Sovereign Reign,

bull and bear New Powerful Exchange, our elephant Noble Ruler and most recently, an incredible casting of the bust of the Pietà in pure silver by Michelangelo. "Looking at this piece in silver leaves you speechless," says Mark Russo, Founder of FM.

“

The base value of the silver went up 1100% since the 1,000 ounces is now a limited-edition Michelangelo.”

Treasure Investments Corporation

An attendee at the New Orleans Investment Conference approached the FM display booth and noticed the pure silver Michelangelo and asked what the price was. The pure silver Pietà bust is cast in .999 pure silver, contains 1,000 troy ounces, and priced at \$195,000.00. Once

informed of this, the attendee asked if he could send his silver to Foundry Michelangelo and have one cast. Russo replied, "we have our own silver but would certainly consider using the silver you can provide." Russo asked the attendee what he had paid for the silver, and his 1,000 troy ounces cost him around \$17,000.00. Russo responded with, "send me your silver and let FM transpose it into a masterpiece by one of the most famous artists in history using our master mold and turn your silver into gold." The client loved the concept and purchased the piece. Most silver owners that hold their silver themselves store it in a safe or hide it somewhere in their

A bust from Michelangelo's Pietà produced in 1000 toz of .999 Pure Silver by Foundry Michelangelo

homes. Mark's idea is to offer customers and buyers of silver bullion to use the silver and cast it into a beautiful work of art and not only enjoy and see the piece but get the incredible monetary gain from the value of the art. The client, although he is paying a premium for the right to have the work cast using one of the limited editions for the Michelangelo, his base value of the silver went up 1100% since his 1,000 troy ounces is now a limited-edition Michelangelo.

FM is now allowing bullion buyers of both silver and pure gold to not just invest in the base metal, but to exponentially increase their investments by having us pour their precious metals into amazing sculptures designed by the most famous artists on earth.
