A virtual card is a secure way to pay for goods and services without having to issue physical cards to employees. B2B virtual cards improve accounts payable (AP) processes, benefiting both buyers and suppliers by streamlining day-to-day payments, and providing greater control over cash flows. These cards have enhanced security, compared to other credit cards and payment methods. B2B virtual card market is driven by exploding mobile device usage, as the payment method can only be used for designated scenarios, such as AP payments and online or mobile purchases.

Market Drivers

- Increased Penetration of the Internet
- Promotional Activities for B2B Virtual Cards

Market Trend

- Advancements in the Virtual Cards

Restraints
