Calrose rice is a common American style of rice that is grown predominately in California. Calrose rice is a type of medium-grain rice that is used in several cuisines because of its softness and stickiness. Because of these properties the flavors are well absorbed. Calrose rice stay together in soups and salads, holding its own among other ingredients. It has no fat content. Calrose rice is also low in calories. There are multiple nutritional benefits to Calrose Rice, which includes no fat, low calorie and great source of carbohydrates. The rice is not as gummy but stays relatively soft when cool, unlike long grain rice.
