Internet Telephony can be categorized as a subset of IP Telephony, which is the carriage and exchange of information (mainly voice) through usage of internet

protocol (IP). When voice traffic is transmitted over the public internet, it is referred to as Internet Telephony. It must be distinguished from voice over IP (VoIP), where voice is transmitted over a private, managed IP network. Internet telephony includes a wide range of communication involving various digital phone systems based on numerous IP addresses. It was developed in order to increase productivity by taking advantage of the internet and various applications attached to it.

## Market Drivers

- High penetration of smartphones and the rapid proliferation of the internet has given rise to a strong interest in carrying telephony over the internet. Also, a rise in disposable income, the

Internet Telephony

growing dependence of enterprises on web-based solutions and se

Strategic Points Covered in Table of Content of Global Internet Telephony Market:

Chapter 1: Introduction, market driving force product Objective of Study and Research Scope the Global Internet Telephony market

Chapter 2: Exclusive Summary – the basic information of the Global Internet Telephony Market.

Chapter 3: Displaying the Market Dynamics- Drivers, Trends and Challenges of the Global Internet Telephony

Chapter 4: Presenting the Global Internet Telephony Market Factor Analysis Porters Five Forces, Supply/Value Chain, PESTEL analysis, Market Entropy, Patent/Trademark Analysis.

Chapter 5: Displaying the by Type, End User and Region 2013-2018

Chapter 6: Evaluating the leading manufacturers of the Global Internet Telephony market which consists of its Competitive Landscape, Peer Group Analysis, BCG Matrix & Company Profile

Chapter 7: To evaluate the market by segments, by countries and by manufacturers with revenue share and sales by key countries in these various regions.

Chapter 8 & 9: Displaying the Appendix, Methodology and Data Source

Finally, Global Internet Telephony Market is a valuable source of guidance for individuals and companies.

#### Data Sources & Methodology

The primary sources involves the industry experts from the Global Internet Telephony Market including the management organizations, processing organizations, analytics service providers of the industry's value chain. All primary sources were interviewed to gather and authenticate qualitative & quantitative information and determine the future prospects.

In the extensive primary research process undertaken for this study, the primary sources – Postal Surveys, telephone, Online & Face-to-Face Survey were considered to obtain and verify

both qualitative and quantitative aspects of this research study. When it comes to secondary sources Company's Annual reports, press Releases, Websites, Investor Presentation, Conference Call transcripts, Webinar, Journals, Regulators, National Customs and Industry Associations were given primary weight-age.
