How COVID19 Pandemic Impact on Global Population Health Management Market? Benchmark yourself with strategic steps and conclusions recently published by AMA"

Nidhi Bhavsar

The need for population health services that combine multiple functionalities is increasing, due to the complex nature of care delivery and payment models. PHM solutions can process clinical, financial, and operational data for the improvement of efficiency and patient care. The improving clinical outcomes, lowering the cost of treatments, and increasing government support are the major factors driving the market. Additionally, the increasing population suffering from chronic diseases, which requires a long period of surveillance and hospital stay, and favorable government policies are the other factors supporting the growth of the market.

Market Drivers

- Government Support for the Prevention of Diseases and Adoption of Hcic
- Rising Geriatric Population and Burden of Chronic Diseases

Market Trend

- High Demand due to the use of cloud Platform
- Advancing It and Big Data Capabilities

Restraints

- Issues Related to the Safety of Patient Information
