

# Maximus Yaney's Kangaroo Announces Revolutionary New Privacy Camera

*New indoor Privacy Camera combines home security features like patented Privacy Shield, 1080 HD quality video, 2-way talk capability, and advanced night vision.*

NEW YORK, NEW YORK, UNITED STATES, April 9, 2020

[/EINPresswire.com/](https://EINPresswire.com/) -- Kangaroo, a world leader in accessible, affordable home security technology established by entrepreneur Maximus Yaney is pleased to unveil their first-ever HD Privacy Camera with state-of-the-art PDLC Smart Glass Privacy Shield to protect your home and family. The Privacy Camera is loaded with thoughtfully designed features intended to make your home security monitoring simple. At \$99, the cost-conscious camera brings a fresh update to home security systems for a fraction of the price of competitors.

With a sleek, unobtrusive design, the Privacy Camera can be mounted on any surface in your home. It works anywhere there is Wi-Fi, sending information straight to your phone. Switch on the camera day or night to keep track of your family and monitor your home. When armed, the camera live-streams 1080 HD quality video through a transparent lens. When you're done using the camera, switch into privacy mode and watch as the patented Privacy Shield creates an opaque barrier over the lens, blocking video and audio to ensure complete privacy.

Maximus Yaney, CEO and co-founder of Kangaroo, explains the mission of Kangaroo: "We believe everyone should have access to home security. Every product we build starts with three questions: is it simple, can it be
