

THC-Free CBD Oils Can Ease Anxiety Associated With The COVID-19 Pandemic

Patriot Supreme is helping ease the stress and anxiety that some Americans are feeling during the COVID-19 pandemic hitting the country.

MESA, ARIZONA, UNITED STATES, April 10, 2020 /EINPresswire.com/ -- Patriot Supreme, a top CBD oil manufacturer, is hoping to help Americans deal with the stress of the current COVID-19 pandemic with a variety of calming CBD oil products. CBD oil can naturally provide instant relief of anxiety by regenerating damaged neurons caused by an overload of stress. Justin Elenburg, the founder and CEO of Patriot Supreme, says, "Those who regularly take prescribed anti-anxiety medication can also simultaneously use CBD oil, which may yield more effective results."

CBD oil has been shown to target 65 areas of the body by stimulating neurotransmitter systems, which can lead to effectively combating anxiety. In a recent 2019 study, 79% of subjects found an overall improvement in their anxiety after taking CBD oil for one month. While dosage depends on the individual, Patriot Supreme recommends that customers start low then slowly increase if needed.

Patriot Supreme uses top quality American-grown hemp and organic, GMO-free sources in its CBD oil for anxiety. The veteran-owned company provides THC-free CBD oil in four different forms for each individual's preferred method of consumption. Those individuals looking to find a natural anxiety treatment can choose between Patriot Supremes' CBD oil tinctures, capsules, gummies or CBD oil topicals. Each of these products is derived from THC-free hemp, ensuring that there are no psychoactive effects.

While Elenburg is unable to legally confirm that CBD oils effectively cure anxiety, he can share his personal experience, "Me and my wife began trialing CBD oil, I took the tincture for fast relief, and my wife chose a topical cream. We quickly became converts, realizing how the CBD oil was
